VIVOTEK’s FE8182 is a Recessed-Mount fisheye network camera, featuring a detailed 5-Megapixel resolution sensor with superb image quality. A small camera with large functionality, VIVOTEK’s FE8182, with a diameter of only 60 mm, is truly an all-in-one surveillance solution that meets a wide variety of needs for indoor surveillance. Equipped with a fisheye lens for 180° panoramic view (wall mount) or 360° surround view without blind spots (ceiling/floor mount), the camera is able to provide full video coverage of wide, open areas, such as airport lobbies, shopping malls, retail stores, offices and more.

The FE8182 offers various display layouts, including original surround view, panoramic view, and regional view to suit a variety of applications. In addition, in both the panoramic and regional viewing modes, users can utilize the ultra-smooth ePTZ function to effortlessly zoom in and focus on a region of interest (ROI). Further, a new cutting-edge pixel calculation function helps users to ensure high image quality for a designated area.

At the darker end of the spectrum, 3D Noise Reduction Technology allows users to enjoy an increased level of image detail in extremely dim environments without consuming or wasting unreasonably high bandwidth. To dramatically reduce file sizes and conserve valuable network bandwidth, the FE8182 supports Smart Stream and industry-standard H.264 compression technology. Further, the recessed-mount design allows users to install the camera without the need for screws. The FE8182 is not just perfect for blending into any surroundings or any roof space, but also produces substantial savings on both cost and time.
