VIVOTEK SD8362E-SS is part of the SUPREME series product line offering 2-Megapixel or 1080p resolution with superb image quality. Adopting a 20x optical zoom lens, the SD8362E-SS is able to capture details at top-notch quality.

The IP66-rated housing protects the camera body against rain and dust within the wide temperature range between -40°C and 55°C. This feature ensures operation under extreme weather conditions. The SD8362E-SS is especially suitable for monitoring wide open indoor/outdoor spaces such as airports, highways and parking lots where high-level reliability and precision are always required.

The SD8362E-SS supports high-performance H.264/MPEG-4/MJPEG compression technology and offers extra smooth video quality with resolution up to 60 fps @ 720p and 30 fps @ 1080p. Boasting WDR technology, the SD8362E-SS can also cope with challenging lighting conditions and generate image quality close to the capabilities of the human eye. With sophisticated pan/tilt mechanism, the camera provides fast, precise movement with continuous 360-degree pan and 90-degree tilt. Users can easily control the lens position via a mouse or a joystick to track the object of interest and set up to 128 preset positions for patrolling.

As with all VIVOTEK true day/night cameras, the SD8362E-SS features a removable IR-cut filter, maintaining clear images 24 hours a day. Audio detection is another new feature available on the SD8362E-SS. By recognizing increases or decreases in sound volume, an additional layer of intrusion detection is ensured. With other advanced features such as 802.3at compliant PoE Plus and 60 fps high quality video, the SD8362E-SS is the best choice for the most demanding outdoor surveillance applications.
